

**CHEMINO  
PHARMA LTD**

**CHEMINO PHARMA LTD**

**CORPORATE BROCHURE**

## COMPANY OVERVIEW

**CHEMINO PHARMA LTD** was founded with the aim of being the “Most preferred supply partner” in the Pharmaceutical segment for its customers with a clear focus on quality, environment health & safety and affordability of products. This is backed by our in-depth industry knowledge, well-qualified team of professionals, as well as modern infrastructure. The Company is engaged in the manufacturing of pharmaceutical products namely API (Human) & API (Veterinary) and Intermediate with being backward integrated for our key products. With the acquisition of Shakti Bioscience we have expanded our product portfolio, manufacturing capability and entered new markets.

### VISION

To be the preferred manufacturer with assured quality and timely delivery using innovative and modern technology which are cost effective and safe.

### MISSION

To strive for excellence in customer service, quality and manufacturing processes.

## COMPANY PHILOSOPHY

At **CHEMINO PHARMA LTD**, we believe that we have a role to play in enriching lives with increased access to affordable healthcare of human and animals. We constantly strive to take up new challenges, be responsible and set new standards in the manufacturing of our products. We aim to be a world class, research-driven & cost-effective backward integrated manufacturer of APIs - Human & Veterinary and Intermediate.

Our approach to work and all interactions with customers, vendors, channel-partners, colleagues and society at large is defined and enriched by our values.

### INNOVATION

Innovation across people, process, products and technology

### CUSTOMER FOCUS

To provide excellent customer service

### TEAMWORK

A diverse and qualified workforce with a positive "can-do" attitude.

## OUR LEADERSHIP

### MR. SADASHIV K. SHETTY

Mr. Sadashiv K. Shetty is the Chairman & Managing Director of Chemino Pharma Limited. He holds a Master in Organic Chemistry with more than 40 years of experience in the Chemical industry. His expertise in the manufacture of pharmaceutical API, Veterinary, Agrochemical and Specialty chemicals backed by strong R&D and product development background is well recognized. He has successfully undertaken establishment of several chemical industrial projects and delivering products to the fullest satisfaction of its customers and users.

The most significant achievement is the establishment of the well known & listed Agro-Chemical Company “Heranba Industries Ltd.” with an annual turnover of 200+ million USD. Heranba manufactures and markets some of the major Agro-chemical products, Intermediates, Technicals and Formulated products catering to the domestic market all over India and exporting the products to more than 60 countries including China, Europe and USA.

A photograph of the exterior of the Chemino Pharma Ltd. building. The building is a modern, multi-story structure with a facade of light-colored panels and large glass windows. The company name "CHEMINO PHARMA LTD." is prominently displayed in large, dark letters along the top edge of the building. To the left of the text is a circular logo featuring a stylized 'C' and 'P' in orange and green. The sky is clear and blue.

The Company has acquired adjacent plot in GIDC Vapi to the existing manufacturing unit to build a new, modern facility with latest and advanced equipment.

## PLANT FACILITIES

### LIQUID HANDLING

Bulk storage and handling facilities | Liquid extraction | Distillations

### SOLID HANDLING

- Vacuum filtration
- Pressure filtration
- Centrifugation
- Agitated Nutsche Filter Dryer (ANFD)
- Fluid bed dryers
- Tray dryers
- Vacuum Tray dryers
- Rotocone Vacuum dryers
- Blender
- Multi Mill
- Shifter

## PLANT FACILITIES

### SERVICES

- Steam boilers 5 ton capacity
- Thermopack 1 lac K Cal / hr
- Hot oil System for temperature up to 300° C
- High Vacuum system less than 2 Torr
- Chilling / Brine Plant temperature less than -15° C
- Demineralized / Purified Water Plant
- DG Set - 1200 KVA

### REACTORS

#### Glass/Glass lined Reactors

- Capacities from 100 liters to 12500 Liters
- Total Capacities : 78000 Liters

#### Stainless Steel Reactors

- Capacities from 250 Liters to 10,00 Liters
- Total Capacities : 98000 Liters

### DISTILLATION

- Glass and SS columns
- Fractionation High Temperature

## PLANT FACILITIES

### R & D CAPABILITY

Our passionate and driven R & D Team constantly strives to increase its know-how.

- Parallel Synthesis Laboratory
- Process Research Laboratory
- Gram Scale Synthesis Laboratory
- Kilo Laboratory
- Pilot Plant

### QUALITY CONTROL
