## OUR FACILITIES

**CHEMINO PHARMA LTD** has state of the art, modern manufacturing facility in Vapi, Gujarat. As a part of the pre-approval processes, facilities have been inspected and approved by large end users, customers, who are rated amongst the largest companies in the world.

### UNIT 1

- Located at GIDC Vapi, Gujarat.
- Manufacturing capacity of 800 tonnes per annum.
- Glass Line Reactor capacity ranging from 100 L to 12 KL with total capacity of 146 KL.
- Stainless Steel Reactors capacity ranging from 250 L to 10 KL with total capacity of 101 KL.
- Audited and approved by customers who are amongst the largest companies in the world.

### UNIT 2

R&D and analytical development lab (ADL) facility is situated adjacent to Unit 1. R&D and ADL work collaboratively to ensure the development of high quality API's, transitioning from initial research to large scale production.

The Company has acquired adjacent plot in GIDC Vapi to the existing manufacturing unit to build a new, modern facility with latest & advanced equipment.

## PLANT FACILITIES

### SERVICES

- Steam boilers 5 ton capacity
- Thermopack 2 lac K Cal / hr
- Hot oil System for temperature up to 300° C
- High Vacuum system less than 2 Torr
- Chilling / Brine Plant temperature less than -15° C
- Demineralized / Purified Water Plant
- DG Set - 1250 KVA
- Nitrogen to plant-2Nos. (10 nm<sup>3</sup>/hr & 30 nm<sup>3</sup>/hr)
- HCl gas generation facility
- Scrubber system
- Primary, Secondary & tertiary Effluent treatment plant.

### DISTILLATION

- Glass and SS columns
- Fractionation High Temperature

## PLANT FACILITIES

### SOLID & LIQUID HANDLING

- Vacuum filtration
- Pressure filtration
- Centrifugation
- Fluid bed dryers
- Tray dryers
- Vacuum Tray dryers
- Rotocone Vacuum dryers
- Blender
- Multi Mill
- Shifter
- Vacuum sealing machine
- Agitated Nutsche Filter Dryer (ANFD)

Bulk storage and handling facilities | Liquid extraction | Distillations

## PLANT EQUIPMENT

We have 3 nos. of clean room facilities with HVAC System and as per ISO 8 standard. We have Purified water system generated as per USP grade which used in manufacturing of finished good API.

Total volume in terms of reactor capacity : 247 KL | Total volume in terms of material out put : 800 MT/Annum

## PLANT EQUIPMENT

TYPE	CAPACITY	QUANTITY
S.S. 316 Reactor	10 KL, 8 KL, 6 KL, 4 KL, 5KL, 3 KL,2 KL, 1.6 KL, 1KL, 500L & 250L	22 Nos.
MS Glass Lined Reactor	12.5 KL, 10KL, 8KL, 6.3 KL, 5KL, 4 KL, 3 KL, 2KL, 1KL & 500L	22 Nos.

## R & D CAPABILITY

### R & D CAPABILITY

Our passionate and driven R & D Team constantly strives to increase its know-how.

- Parallel Synthesis Laboratory
- Process Research Laboratory
- Gram Scale Synthesis Laboratory
- Kilo Laboratory
- Pilot Plant
- Process Investigation Laboratory
- Quality by Design
- Analytical Development Laboratory

## QUALITY UNIT

Quality forms the crux of our consistent drive towards perfection. The process of Quality Unit begins right from vendor selection and processes up to finished products.

We have a fully equipped **Quality Control Laboratory** to adhere to the requirements as per GMP and statutory bodies that ensures the suitability of input materials and monitors the progress of reactions at every stage till the final finished products.

**Microbiology Laboratory** in place to conduct testing of purified water, environmental monitoring and finished goods samples for microbial content.

Independent **Quality Assurance department** in place having key role for implementation of quality system management, document control, validation, qualification, training and batch release or rejection.
